We, Ledgeview Gardens, wish to provide you with fresh, local, seasonal food and you, the member, wish to receive a portion of our harvest. This agreement outlines our shared commitments to that relationship.

Section 1. Introducing Our CSA Farm

A. Becoming a Part of Our Farm

Community Supported Agriculture (CSA) is a relationship between our farm and you as our customer. Rather than simply purchasing food, our customers become “members” of this CSA farm who receive a portion of the farm’s harvest.

Our CSA runs for 22 weeks, from May 31st to October 26th. Members are responsible for showing up at the farm or designated site each week to pick out your share of freshly harvested produce, protein or other farm products. We offer a Market Style share option so our members are able to choose the vegetables their family will enjoy up to 8 points for a half share and 16 points for a full share. Detailed information regarding pick-up is discussed below in Section 3. Variety and quantity may vary as described below in Section 2.

B. Our Growing Practices

Our farm is non-certified organic, specializing in hydroponic tomatoes, mixed lettuce and cucumbers. Because of our investment in hydroponics we are able to start our CSA earlier in the spring and extend it later into the fall. Our CSA offering is designed around the most valued items for a typical family. Our goal is to supply the standard produce items to help you avoid purchasing your family's vegetables from a grocery store and buying food of an unknown origin. Our farm is free of synthetic chemicals used for weed or bug control as we have found other ways to control those environmental aspects to produce a clean, healthy product you can be proud to feed your family.

C. The Products We Expect for 2023

The chart below outlines an example of the vegetables we expect to offer and when you may see them available. This chart is based on our best estimate, but weather, pests, and other events may affect actual production.

Section 2. Our Shared Commitments

A. Sharing in the Risk of Crop Failure

We promise to do our best to provide you with a bountiful share each week. The diversity of produce, however, may vary from month-to-month due to extreme weather, insects, or other production factors despite our best efforts. By joining our CSA, you are agreeing to share the risk of crop failure with us and other members. In the unlikely event of a crop failure, our procedure is as follows:

If only a small portion of crops fail, we compensate for the failed crops by offering a variety of other crops grown on the farm or purchased from other local producers. Any product offered from another farm will be labeled as such and the farm name will be listed. If a large portion of crops fail, we may not be able to deliver great diversity in some weeks.

B. Sharing in the Reward of Crop Surplus

In addition to our CSA, our farm sells at restaurants, grocery stores, local schools, and/or wholesale distributors. We segregate our production for the CSA by harvesting fresh on Tuesday for Wednesday and Thursdays shares; our members are always getting the freshest products because you are our priority. When production of our CSA segregated crops are especially abundant we will increase the amount of product offered per point to increase your take home quantity. However, we don't want to overwhelm our members or deliver so much produce that it goes to waste. When we feel that members have received enough of certain crops, we handle the surplus by selling it to our restaurant buyers, or other wholesale avenues.

C. Share Descriptions

Full share Market Style: Full shares are designed to feed a family of four that makes meals at home at least 2-3 times per week; Or a couple that frequently cooks at home or juices.
